

"This facility is just short of being a miracle. They really are a first class outfit. The STNAs go above and beyond the call of duty. They are real, honest, and have true love and concern. They give the residents respect and dignity. The staff in the Activities department does a good job as well."

Bruce Dzeda, Family Member

Helping People Live Better

SERVING OUR COMMUNITY WITH CARE

All day. Every day.

Each individual journey with Alzheimer's disease and Dementia takes a unique and differing path. Our multidisciplinary team has been specifically trained to understand the progression of these diseases and together create an individualized plan of care addressing personal interests, life history, physical ability and cognition. Working together, our team creates a person centered care path that embraces our fundamental philosophy - preserving the dignity of each resident.

Our program is guided by a creative and innovative group of professionals committed to identifying and respecting each person's lifelong habits, values and patterns of living. Our goal is to structure each day with activities that improve quality of life.

OUR APPROACH IS UNIQUE

We understand there are many choices when selecting a center for Dementia or Alzheimer's Care but at Arbors at Stow, our approach is unique. We strive to provide innovative programs alongside individualized care surrounded by an environment of comfort.

Our center is made up of 6 specialized units designed to ease the transition from early diagnosis to end stage. As one of the largest providers of Dementia Services in Ohio, we pride ourselves on our personal approach to customer service.
